About Me: I am a self-taught Full Stack React Developer, with experience in a wide range of front-end and back-end technologies.

Projects

IG Clone: ([see demo](#) / [view code](#)):

NextJS app that mimics the appearance and functionalities of the popular social media app, Instagram. Utilizes MongoDB and TailwindCSS.

Restaurant App: ([see demo](#) / [view code](#))

NextJS app that takes online food orders using React, Redux, & Paypal API. The backend is made up of the NextJS server which is connected to MongoDB and styled with TailwindCSS.

Fitness App: ([see demo](#) / [view code](#))

ReactJS app that provides users access to fundamental fitness tools to achieve individual fitness goals. The backend is made up of NodeJS/ExpressJS coupled with MongoDB and styled with TailwindCSS.

Experience

Title Support Specialist

LoanDepot / American Coast Title Company
